Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

In Preliminary Amendment, Applicant canceled claims 1-3, 8-9, 17-20 and 23.

Therefore, claims 4-7, 10-16, 21-22, 24-32 are still pending.

Election/Restrictions

This application contains embodiments directed to the following patentably distinct species of the claimed invention:

A. The species of First embodiment drawn to a liquid crystal display device with multi-domain alignment by the orientation layer 10 having the curved surface and columnar spacer 12 disposed approximately at a center of a pixel; wherein an insulating film 9 disposed between the orientation layer 10 and pixel electrode 15 (figures 1-3).

B. The species of Second embodiment drawn to a liquid crystal display device with multi-domain alignment by the orientation layer 21 having the curved surface and columnar spacer 12 disposed approximately at a center of a pixel; wherein an the orientation layer 21 is formed directly on and pixel electrode 8 (figures 4 and 5).

Each Group A or B contains embodiments directed to the following patentably distinct subspecies of the claimed invention:

a. The First Subspecies drawn to the curved surface defining a cavity recessed toward the first plate in cross section taken along a line normal to the first plate according to Fig. 1 or Fig. 4.

b. The second Subspecies drawn to the curved surface defining a protrusion directed toward the second plate in cross section taken along a line normal to the first plate according to Fig. 3 and Fig. 5.

If Group A or B is elected, Applicant is required under 35 U.S.C. 121 to elect a single disclosed subspecies for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 34 and 42 are generic.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there is no generic claim.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims and any drawings readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 2871

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to HOAN C. NGUYEN whose telephone number is (571) 272-2296. The examiner can normally be reached on MONDAY-THURSDAY:8:00AM-4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kim H Robert can be reached on (571) 272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
